1943-44	25.0	25.6	16.4	9.4	12.5	2.2	5.2	3.7	13,667,332

*Data on crossbreds is not truly indicative of the situation since in several States birds in crossbred flocks are reported under the respective purebred heading and in some States these flocks are cross-mated only for a portion of the year to produce broilers; for the remainder of the year they are mated as purebreds for the production of purebred chicks.
